

DEEKSHA SHANKAR NAIK

Backend & Full Stack Developer | Python | Java | Django | React | SQL | Docker | AWS
Bengaluru, Karnataka | +91 9945022720 | snaikeeksha2@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Aspiring Backend & Full Stack Developer skilled in Python, Django, SQL, and Java, with experience building and deploying real-world applications. Strong understanding of REST APIs, databases, and version control. Passionate about scalable backend systems and quick at learning new technologies with proven teamwork and problem-solving skills.

TECHNICAL SKILLS

Backend & Databases: Python, Django, REST APIs, SQL, PostgreSQL, MySQL, MongoDB, Node.js, Express.js

Frontend: HTML, CSS, JavaScript, React.js

Programming: Java, C

Cloud & Deployment: AWS, Google Cloud Platform

Developer Tools: GitHub, VS Code, Docker, Linux, Render, Vercel

Testing & APIs: Postman, PyTest

Core CS: DSA, DBMS, OS, CN, OOP

TECHNICAL PROJECTS

MarketPredict | *Python, Streamlit, Prophet, REST APIs, SQL, yfinance* *Oct 2024 – Jan 2025*

- Led a 4-member team to design, and deploy a production-ready full-stack stock prediction platform using Prophet, ensuring high-quality implementation of data pipelines and real-time market data integration via yfinance APIs.
- Engineered backend data pipelines and secure SQL storage, reducing response latency by 20%.
- Designed an interactive dashboard with candlestick charts, trend analysis, and exportable insights in Streamlit.
- Achieved 87% forecast accuracy, significantly enhancing data-driven decision-making insights for users.

QR-Based Attendance System | *Python, Django, OpenCV, SQLite, HTML/CSS* *Jan 2024 – Sep 2024*

- Engineered an automated QR code attendance platform with real-time scanning via OpenCV.
- Implemented Django backend with secure attendance storage, authentication, and faculty/student dashboards.
- Deployed a responsive UI to support institutional usage and faster check-in efficiency across campuses.
- Improved 95%+ scan accuracy and reduced manual errors; enabled PDF/Excel export for reports.

PROFESSIONAL EXPERIENCE

Full Stack Development Intern | **Cognifyz Technologies** | **Aug 2025 – Sep 2025**

- Developed and tested backend APIs and full-stack features using Django and SQL for scalable performance.
- Followed Git-based workflows, code reviews, and Agile sprints to improve efficient team delivery.

Private Tutor | **2020 – 2022**

- Delivered personalized tutoring to 15+ students (ages 5–16), leading to a 25% improvement in average test scores.
- Adapted teaching methods to varying academic levels, enhancing comprehension and boosting student confidence in key subjects through personalized guidance and continuous performance tracking.

EDUCATION

Canara Engineering College *Dec 2022 – Jul 2026*
Bachelor of Engineering in Computer Science
Siddhartha INDP PU College *Sep 2020 – Apr 2022*
Pre-University, PCMB

CERTIFICATIONS

- Ruby:** IIT Bombay (Spoken Tutorial) | Apr 2025
- Quantum Computing and Introduction to Quantum Machine Learning:** Udemy | Feb 2025
- RDBMS PostgreSQL:** IIT Bombay (Spoken Tutorial) | Nov 2024
- Java:** IIT Bombay (Spoken Tutorial) | Jul 2024
- Linear Algebra using Python:** Infosys Springboard | May 2024
